The following graphic is presenting the Company’s activity related to the number of financed land plots month by month, until the end of June 2018.

In June 2018 „ELANA Agrocredit“AD has affirmed its positions in the regions where it traditionally finances farmers under financial lease contracts.

## 4. Our land quality

The Company business model is based on the fact that during each lease term and until the repayment of all the lease contributions, the land which purchase has been financed remains the property of the Company. In this way, the land itself serves as collateral for discharging lessees obligations under leases and as a guarantee for our shareholders investments. Having in mind this, we precisely select the lands, which we buy in execution of leasing contracts. They are mainly agricultural land plots with sustainable use: farm fields or cultivated areas and they are the most liquid ones on the agricultural market. The Company finances single projects for development of vineyards and other perennials as well and first on the market finances livestock farmers for the purchase of permanent grassland.

The following table presents all the land plots financed by now showing the quality of land by its sustainable use and category.

## 5. Our clients. Contracts performance

The success of our business is based mainly on the right and precise selection of our clients, that we are financing for agricultural land purchases. As of the end of January 2018 “ELANA Agrocredit” AD has financed 415 companies and agricultural producers, and during the month, the company has financed 5 new clients.

In service of our lessees, the repayment of the lease contributions is one time in the year – on 15th of September. The date is completely in line with the specifications of farmers’ business and customised on the basis of their needs and incomes. Our clients are obliged to pay their annual instalments in a 30-days period (from 15 September up to 15 October).

The most precise indicator for the trustworthiness of our clients is the percentage of the repayments received on 15th of September each year.

The table below is showing the collection rate under lease contracts in 2013, 2014, 2015, 2016 and 2017.

Maturity Date	Number of Deals	Total amount of the instalments due under lease agreements	Total paid amount	Execution
15.9.2013	24	26 144.85	26 144.85	100.00%
15.9.2014	299	915 166.47	837 309.27	> 100%, including the amount of the land plots sold under defaulted and terminated contracts
15.9.2015	942	2 918 266.03	2 910 924.50	> 100%, including the amount of the land plots sold under defaulted and terminated contracts
*15.9.2016	1 503	4 731 693.35	4 678 321.92	98.87%, but having mind the amount of the land plots sold under defaulted and terminated contracts BGN 4 707 032.54 or 99.48% were collected
**15.9.2017	1 978	7 033 060.19	6 869 357.08	97.67% of the due lease payments matured in 2017

\* At the end of 2016, 262 out of 265 clients paid their obligations in full size (98.87%). ELANA Agrocredit AD effectively collected BGN 4 673 189.27, which is equal to 98.76% from all annual payments in 2016. The company has terminated the contracts with three of four clients, selling and fully satisfying its receivables from two of the incorrect clients, and also realizing a good profit for the shareholders. The land plots of the third client are partially sold, and the Company has decided that it will be possible to obtain better profits from the sale of the other land plots and has postponed their sale in 2017. After accounting for the sales, BGN 4 707 032.54 was actually collected or more than 99.48% of the total payments due.

\*\* At the end of 2017, 311 out of 313 clients with financial lease contract liabilities in 2017, paid their obligations in full size (99.36%). One of the two remaining non-settled clients started paying his contract liabilities and therefore the Company decided not to terminate his contract and sale his property. On May 30, the Company terminated the contract with the other incorrect customer and by the end of June the Company plans to sell the properties purchased under the terminated contract and fully satisfy its receivables from the purchase price of the property. We expect to collect all amounts due. Up to the current moment, the Company has effectively collected BGN 6 869 357.08 or over 97.67% of the amounts due.
